

CARNIVOROUS PLANTS

Bourke G & Nunn R (2012) Australian carnivorous plants. Redfern Natural History Productions, Poole, Dorset, UK (www.redfermnaturalhistory.com). 197 pp. ISBN 9781908787026.

Not an identification guide as such, but the gorgeous colour photos show most of the nearly 200 native carnivorous species across six genera.

Lowrie A (1987, 1989, 1998) Carnivorous plants of Australia. University of Western Australia Press, Nedlands, WA. (3 vols.)

Vol. 1 (1987): 200 pp., ISBN 0855642548; **Vol. 2** (1989): 202 pp., ISBN 0855643005; **Vol. 3**, (1998): 288 pp., ISBN 1875560599.

Vol. 1 includes tuberous *Drosera*; Vol. 2 includes pygmy *Drosera*, Vol. 3 includes *Utricularia*, *Aldrovanda*, *Cephalotus*, *Drosera*, *Byblis*, and *Nepenthes*. *Volume 3 also* includes keys to species covered by all three volumes. Descriptions, good line illustrations, maps, and some colour photos. Somewhat dated.

McPherson S & Robinson A (2012) Field guide to the pitcher plants of Australia and New Guinea. Redfern Natural History Productions, Poole, UK. 59 pp. ISBN-10: 1908787074; ISBN-13: 9781908787071.

Covers all known Australian members of the genus *Nepenthes*, and the monotypic *Cephalotus*. No keys, but good plain-language descriptions and very good colour photos.

Northern Territory Herbarium (2013) The genus *Utricularia* in the Northern Territory.

Northern Territory Herbarium, NT Department of Land Resource Management.

ELECTRONIC RESOURCE, ON-LINE: free PDF: <https://www.greeningaustralia.org.au/wp-content/uploads/2017/11/Howard-Sands-Utricularia-in-NT.pdf>

Brief background information on the genus, and a key to the species occurring in the NT.
