

EMU BUSHES (*Eremophila*)

Boschen N, Goods M, & Wait R (2008) Australia's Eremophilas: changing gardens for a changing climate. Bloomings Books, Melbourne. 271 pp. ISBN 9781876473655.

Mainly a gardening guide, but covers most of the described species, with brief descriptions and notes and good colour photos.

Brown A & Buirchell B (2011) A field guide to the Eremophilas of Western Australia. Simon Nevill Publications (snpub@bigpond.net.au). 335 pp. ISBN 9780980348156.

All WA species are covered, with very brief descriptions and notes, and very good colour photos.

Chinnock RJ (2007) *Eremophila* and allied genera – a monograph of the plant family Myoporaceae. Rosenberg Publishing, Dural NSW (www.rosenbergpub.com.au). 672 pp. ISBN 9781877058165.

A technical monograph (full keys, descriptions and nomenclature), with excellent line drawings and fair to good colour photos. Covers all species of the family.

[Jennings C, Freeborn M, and Holliday I] (1997) Eremophilas for the garden. Society for Growing Australian Plants SA Region, Adelaide, SA. 72 pp. ISBN 0646329324.

Plain-English descriptions and notes, and good colour photos, of nearly 70 taxa.

EUCALYPTS - see Myrtaceae
