

GOODENIACAE

George AS (exec. Ed.) (1992) Flora of Australia Volume 35: Brunoniaceae, Goodeniaceae. (Flora of Australia Series). Australian Biological Resources Study / Australian Government Publishing Service (AGPS). 351 pp. ISBN 9780644144544 pbk; ISBN 9780644145534 hbk.

Now somewhat dated but still the only comprehensive national treatment of the family. Usual flora treatments of family, genera and species, with keys, distributional info, good line drawings and a few black and white micrographs and colour illustrations. RECOMMENDED
