

South Australian threatened plant translocation workshop program

Friday 3 May 2019, University of Adelaide

Time	Topic	Speaker
9.00	Welcome	Michelle Waycott
	Theme 1 What is translocation and why does it matter?	Chair: Kylie Moritz
9.10	Introduction to Plant Translocation and overview of Translocation guidelines	Lucy Commander
9.30	Deciding whether or not to translocate	Doug Bickerton
9.50	Pre-translocation assessment of ecology and biology	Michelle Waycott
10.10	Case study 1: Yundi Guinea-flower (<i>Hibbertia tenuis</i>), unlocking seed dormancy and using ecological burns for better growing conditions for threatened flora	James Trezise
10.25	Question time	
10.40	Morning Tea	
	Theme 2 Translocation policies and preparation	Chair: Lucy Commander
11.10	Translocation policies and requirements for approvals in South Australia	Doug Bickerton
11.25	Preparing a translocation proposal – tips for success	Lucy Commander
11.45	Seed banking and seed utilisation for recovery programs and threatened flora translocations	Dan Duval
12.05	When do you need a geneticist, and seed provenance	Martin Breed
12.20	Question time and workshop photo	
12.35	Lunch	
	Theme 3 Managing and monitoring translocations	Chair: Doug Bickerton
1.30	The translocation design and ongoing management	Lucy Commander
1.50	Case Study 2: Future threatened flora translocations in the Adelaide Mount Lofty Ranges	Jerry Smith
2.05	Case study 3: Silver Daisy-bush (<i>Olearia pannosa ssp pannosa</i>) project	Alex Mason
2.20	Monitoring and evaluation of translocations	Kylie Moritz
2.35	Case study 4: Managing and monitoring Spiny Daisy (<i>Acanthocladium dockeri</i>) translocations	Tim Field
2.50	Question time	
3.00	Short break	
	Theme 4 Engaging with stakeholders and the community	Chair: Lucy Commander
3.10	Case study 5: A Habitat Approach to Species Recovery on Kangaroo Island	Veronica Bates
3.25	Case study 6: Working together to help protect Whibley wattle (<i>Acacia whibleyana</i>)	Geraldine Turner
3.40	Case study 7: A journey with Monarto Mintbush (<i>Prostanthera eurybioides</i>)	Kylie Moritz
3.55	Panel Discussion Questions from the floor	Chair: Doug Bickerton All speakers
4.40	Closing comments	Lucy Commander
4.50	Close	

This event is supported by the South Australian Murray-Darling Basin Natural Resources Management Board through funding from the NRM levies. Funding has also been provided by The University of Adelaide and the Threatened Species Recovery Hub.
